**dele alli and gary neville interview: José Mourinho** Kaszás Levente, 2024-11-12 José Mourinho minden bizonnyal az egyetemes futball egyik legnagyszerűbb edzőjeként kerül majd be a történelemkönyvekbe. A középszerű focista karrierjét maga mögött hagyó portugál az európai klubfutball legnagyobb trófeáit tudta bezsebelni – némelyiket többször is. Az utóbbi években azonban Mourinho renoméja megkopott és már egyre nehezebben tudja felkelteni a legnagyobb sztárklubok érdeklődését. A Real Madridtól történő távozását követően José a Chelsea-nél, a Manchester Unitednél, a Tottenhamnél, valamint a Románál is tevékenykedett, jelenleg pedig a török első osztályban szereplő Fenerbahçe vezetőedzője. Ezen könyv részletesen megvizsgálja a portugál tréner időszakait a fentebb megnevezett kluboknál és igyekszik kideríteni, milyen okok eredményezték azt, hogy a világ legnépszerűbb csapatai után Mourinhónak már „csak” a török ezüstérmes jutott. Emellett pedig José legnagyobb vihart kavarázó nyilatkozatai is terítékre kerülnek a saját játékosaival, főnökeivel és a játékvezetőkkel való balhéi mellett.

**dele alli and gary neville interview: Access to Knowledge in the Age of Intellectual Property** Gaëlle Krikorian, Amy Kapczynski, 2010 A movement emerges to challenge the tightening of intellectual property law around the world. At the end of the twentieth century, intellectual property rights collided with everyday life. Expansive copyright laws and digital rights management technologies sought to shut down new forms of copying and remixing made possible by the Internet. International laws expanding patent rights threatened the lives of millions of people around the world living with HIV/AIDS by limiting their access to cheap generic medicines. For decades, governments have tightened the grip of intellectual property law at the bidding of information industries; but recently, groups have emerged around the world to challenge this wave of enclosure with a new counter-politics of access to knowledge or A2K. They include software programmers who took to the streets to defeat software patents in Europe, AIDS activists who forced multinational pharmaceutical companies to permit copies of their medicines to be sold in poor countries, subsistence farmers defending their rights to food security or access to agricultural biotechnology, and college students who created a new free culture movement to defend the digital commons. *Access to Knowledge in the Age of Intellectual Property* maps this emerging field of activism as a series of historical moments, strategies, and concepts. It gathers some of the most important thinkers and advocates in the field to make the stakes and strategies at play in this new domain

visible and the terms of intellectual property law intelligible in their political implications around the world. A Creative Commons edition of this work will be freely available online.

**dele alli and gary neville interview:** Brave New World Guillem Balague, 2017-10-26 The Sunday Times Bestseller The exclusive behind-the-scenes story of the Mauricio Pochettino revolution at Spurs, told in his own words Since joining the club in 2014, Mauricio Pochettino has transformed Tottenham from underachievers into genuine title contenders. In the process, he has marked himself out as one of the best managers in the world. He has done so by promoting an attacking, pressing style of football and by nurturing home-grown talent, fully endearing himself to the Spurs faithful along the way. Guillem Balagué was granted unprecedented access to Pochettino and his backroom staff for the duration of the 2016-17 season, and was therefore able to draw on extensive interview material with Pochettino, his family, his closest assistants, players such as Dele Alli and Harry Kane, and even a very rare conversation with Daniel Levy to tell the manager's story in his own words. From Pochettino's early years as a player and coach to his transformation of Tottenham into one of the best teams in England, the book uniquely reveals the inner workings of the man and of his footballing philosophy. It also lays bare what it takes to run a modern-day football team competing at the highest level over the course of a single campaign. The result is the most comprehensive and compelling portrait of a manager and of a club in the Premier League era.

**dele alli and gary neville interview:** Indonesia's Secret War Robin Osborne, 1985 This book describes the historical development of the Irian Jaya guerrilla struggle for independence from Indonesia. The OPM, Organisasi Papua Merdeka, has been fighting Indonesian rule in West New Guinea since 1969; the military presence there was established in 1962. The author believes that the great majority of West Papuans support the OPM. The Indonesian Transmigration programme has forcibly alienated clan land and sponsored settlers from Java. As a result of this policy 10,000 Papuans fled Irian Jaya in mid-1984 to seek safety in Papua New Guinea. The exodus was more than 1 per cent of the indigenous population. The OPM has almost no foreign allies. Both Papua New Guinea and Australia emphasize that Irian Jaya is part of Indonesia and thus an internal matter. The author predicts that greater autonomy for Irian Jaya would be more likely to result from political pressure on Jakarta than from a military victory by OPM.

**dele alli and gary neville interview:** Travelers Rest Keith Lee Morris, 2016-01-05 A chilling fable about a family marooned in a snowbound town whose grievous history intrudes on the dreamlike present. The Addisons -- Julia and Tonio, ten-year-old Dewey, and derelict Uncle Robbie -- are driving home, cross-country, after collecting Robbie from yet another trip to rehab. When a terrifying blizzard strikes outside the town of Good Night, Idaho, they seek refuge in the town at the Travelers Rest, a formerly opulent but now crumbling and eerie hotel where the physical laws of the universe are bent. Once inside the hotel, the family is separated. As Julia and Tonio drift through the maze of the hotel's spectral interiors, struggling to make sense of the building's alluring powers, Dewey ventures outward to a secret-filled diner across the street. Meanwhile, a desperate Robbie quickly succumbs to his old vices, drifting ever further from the ones who love him most. With each passing hour, dreams and memories blur, tearing a hole in the fabric of our perceived reality and leaving the Addisons in a ceaseless search for one another. At each turn a mysterious force prevents them from reuniting, until at last Julia is faced with an impossible choice. Can this mother save her family from the fate of becoming Souvenirs -- those citizens trapped forever in magnetic Good Night -- or, worse, from disappearing entirely? With the fearsome intensity of a ghost story, the magical spark of a fairy tale, and the emotional depth of the finest family sagas, Keith Lee Morris takes us on a journey beyond the realm of the known. Featuring prose as dizzyingly beautiful as the mystical world Morris creates, Travelers Rest is both a mind-altering meditation on the nature of

consciousness and a heartbreaking story of a family on the brink of survival.

**dele alli and gary neville interview:** *Rhetorics of Whiteness* Tammie M Kennedy, Joyce Irene Middleton, Krista Ratcliffe, 2016-12-21 Winner, CCCC Outstanding Book Award in the Edited Collection Category, 2018 With the election of our first black president, many Americans began to argue that we had finally ended racism, claiming that we now live in a postracial era. Yet near-daily news reports regularly invoke white as a demographic category and recount instances of racialized violence as well as an increased sensitivity to expressions of racial unrest. Clearly, American society isn't as color-blind as people would like to believe. In *Rhetorics of Whiteness: Postracial Hauntings in Popular Culture, Social Media, and Education*, contributors reveal how identifications with racialized whiteness continue to manifest themselves in American culture. The sixteen essays that comprise this collection not only render visible how racialized whiteness infiltrates new twenty-first-century discourses and material spaces but also offer critical tactics for disrupting this normative whiteness. Specifically, contributors examine popular culture (novels, films, TV), social media (YouTube, eHarmony, Facebook), education (state law, the textbook industry, dual credit programs), pedagogy (tactics for teaching via narratives, emotional literacy, and mindfulness) as well as cultural theories (concepts of racialized space, anti-dialogicism, and color blindness). Offering new approaches to understanding racialized whiteness, this volume emphasizes the importance of a rhetorical lens for employing whiteness studies' theories and methods to identify, analyze, interpret, and interrupt representations of whiteness. Although whiteness studies has been waning as an active research field for the past decade, the contributors to *Rhetorics of Whiteness* assert that it hasn't lost its relevancy because racialized whiteness and issues of systemic racism persist in American society and culture today. Few whiteness studies texts have been published in rhetoric and composition in the past decade, so this collection should quickly become mandatory reading. By focusing on common, yet often overlooked, contemporary examples of how racialized whiteness haunts U.S. society, *Rhetorics of Whiteness* serves as a valuable text for scholars in the field as well as anyone else interested in the topic.

**dele alli and gary neville interview:** *The United States and Iran* James F. Goode, 2016-07-27 This study presents an analysis of US-Iranian relations in the twentieth century, with particular attention to the crisis over nationalization of British oil interests at midcentury. As such, it focuses on the career of Muhammad Musaddiq, who struggled during those years to free his country from foreign influence, and whose memory continued to haunt bilateral relations with the United States up to the Iranian revolution. Throughout, it examines Anglo-American views of Iranians (and by implication of other non-Westerners) which affected - and still affect - the conduct of international relations.

**dele alli and gary neville interview:** *The Ciano Diaries, 1939-1943* Count Galeazzo Ciano, 2017-07-11 The inside story of international politics in Nazi-controlled Europe during World War II, told by the ultimate insider, Count Galeazzo Ciano—Italian Foreign Minister and son-in-law of Mussolini—who was ultimately charged as a traitor and killed by the Fascists in 1943. "In this state of mind, which excludes any falsehood, I declare that not a single word of what I have written in my diaries is false or exaggerated or dictated by selfish resentment. It is all just what I have seen and

heard. And if, when making ready to take leave of life, I consider allowing the publication of my hurried notes, it is not because I expect posthumous revaluation or vindication, but because I believe that an honest testimonial of the truth in this sad world may still be useful in bringing relief to the innocent and striking at those who are responsible.”—(signed) GALEAZZO CIANO, December 23, 1943, Cell 27 of the Verona Jail.

The book will include a new chapter covering events that followed the book's publication: Keane's vindication by the FAI report; the punishment meted out by the FA and Mick McCarthy's resignation. Brilliantly reviewed, Roy Keane's riveting, brutally honest autobiography has the potential to be one of the year's biggest paperback bestsellers.

**dele alli and gary neville interview: Death Drive** Stephen Bayley, 2018-09 Cars have a talismanic quality. No other manufactured object has the same disturbing allure. More emotions are involved in cars than any other product: vanity, cupidity, greed, social competitiveness, cultural modelling. But when all this perverse promise ends in catastrophe, these same talismanic qualities acquire an extra dimension. The car crash is a defining phenomenon of popular culture. Death Drive is both an appreciative essay about the historic place of the automobile in the modern imagination and an exploration of the circumstances surrounding multiple celebrity denouements, including Isadora Duncan, Jane Mansfield, James Dean, Jackson Pollack, Princess Grace, and Helmut Newton, among many others. En route the narrative traces one very big arc - the role of the car in extending or creating the personality of a celebrity - and concludes by confronting the imminent death of the car itself. AUTHOR: Stephen Bayley recounts delightfully grotesque tales about celebrities done in by trees, by lampposts, or by nonentities in ancient Chevys. A design masterpiece, this book combines exquisite prose with stylish presentation - the cars are described more lovingly than the people who perished in them. Like a Bugatti, Death Drive recalls a time when books and cars were beautiful. SELLING POINTS: \* Albert Camus once remarked that there's nothing more absurd than to die in a car accident. That was before his car hit a tree at 80mph. Death Drive - a compendium of stories about famous people killed stupidly in cars - oozes absurdity \* A Times Book of the Year, 2016 \* Big names like James Dean, Jackson Pollack, and Princess Grace are among the victims 72 colour photographs

**dele alli and gary neville interview: Football Nation** Andrew Ward, John Williams, 2009-08-03 Football is at the heart of British national identity, intrinsically linked to our social history. Through more than forty fascinating stories Football Nation reveals the hidden and not-so-hidden history of the game since 1945. From the mass audiences of austerity Britain and the introduction of

floodlights at Accrington Stanley in the 1950s, through the escalating hooliganism of the 1970s and the arrival of the first all-seater stadium at Coventry in the 1980s, to the Hillsborough disaster and the coming of the Premiership, Andrew Ward and John Williams reveal the truth about the national game as it was once and is today in the age of satellite TV, celebrity lifestyle and extreme wealth. Looking back at the days when footballers were amateurs who travelled to the match with the fans, right through to the present day where top-flight players command a higher weekly wage than the average spectator can earn in a year, *Football Nation* is informed, wryly amusing, often surprising and always vastly entertaining. It offers an entirely fresh perspective on the history of the beautiful game in Britain.

**dele alli and gary neville interview: Peace Works** Frederick D. Barton, 2018-04-20 Bosnia, Rwanda, Haiti, Afghanistan, Iraq, and Syria - a quarter-century of stumbles in America's pursuit of a more peaceful and just world. American military interventions have cost thousands of lives and billions of dollars, yet we rarely manage to enact positive and sustainable change. In *Peace Works: America's Unifying Role in a Turbulent World*, ambassador and global conflict leader Rick Barton uses a mix of stories, history, and analysis for a transformative approach to foreign affairs and offers concrete and attainable solutions for the future. Drawing on his lifetime of experience as a diplomat, foreign policy expert, and State Department advisor, Rick Barton grapples with the fact that the U.S. is strategically positioned and morally obligated to defuse international conflicts, but often inadvertently escalates conflicts instead. Guided by the need to find solutions that will yield tangible results, Barton does a deep analysis of our last several interventions and discusses why they failed and how they could have succeeded. He outlines a few key directives in his foreign policy strategy: remain transparent with the American public, act as a catalyzing (not colonizing!) force, and engage local partners. But above all else, he insists that the U.S. must maintain a focus on people. Since a country's greatest resource is often the ingenuity of its local citizens, it is counterproductive to ignore them while planning an intervention. By anchoring each chapter to a story from a specific conflict zone, Barton is able to discuss opportunities pursued and missed, areas for improvement, and policy recommendations. This balance between storytelling and concrete policy suggestions both humanizes distant stories of foreign crises, and provides going-forward solutions for desperate situations. The book begins and ends in Syria - the ultimate failure of our current approach to foreign policy, and with devastating consequences.

**dele alli and gary neville interview: *Contesting 'Race' and Sport*** Kevin Hylton, 2018-03-08 In the decade since Kevin Hylton's seminal book *'Race' and Sport: Critical Race Theory* was published, racialised issues have remained at the forefront of sport and leisure studies. In this important new book, Hylton draws on original research in contemporary contexts, from sport coaching to cyberspace, to show once again that Critical Race Theory is an insightful and productive tool for interrogating problematic social phenomena. Inspired by W.E.B. Du Bois' statement that the problem of the twentieth century is the problem of the colour line, this book sheds a critical light on the way sport perpetuates racism, while identifying opportunities to challenge its insidious presence. Exploring and explaining the ways in which notions of 'race' are expressed and contested at individual, institutional and societal levels, it addresses key topics such as whiteness, diversity, colourblindness, unconscious bias, identity, leadership, humour and discourse to investigate how language can be used as a device for resistance against racism in sport. *Contesting 'Race' and Sport: Shaming the Colour Line* is vital reading for all sport studies students, academics and those with an interest in race, ethnicity and society. **dele alli and gary neville interview: *The Gift of Failure*** Jessica Lahey, 2015-08-11 The New York Times bestselling, groundbreaking manifesto on the critical school years when parents must learn to allow their children to experience the disappointment and frustration that occur from life's inevitable problems so that they can grow up to be successful, resilient, and self-reliant adults. Modern parenting is defined by an unprecedented level of overprotectiveness: parents who rush to school at the whim of a phone call to deliver forgotten assignments, who challenge teachers on report card disappointments, mastermind children's friendships, and interfere on the playing field. As teacher and writer Jessica Lahey explains, even though these parents see themselves as being highly responsive to their children's well being, they aren't giving them the chance to experience failure—or the opportunity to learn to solve their own problems. Overparenting has the potential to ruin a child's confidence and undermine their education, Lahey reminds us. Teachers don't just teach reading, writing, and arithmetic. They teach responsibility, organization, manners, restraint, and foresight—important life skills children carry with them long after they leave the classroom. Providing a path toward solutions, Lahey lays out a blueprint with targeted advice for handling homework, report cards, social dynamics, and sports. Most importantly, she sets forth a plan to help

parents learn to step back and embrace their children's failures. Hard-hitting yet warm and wise, *The Gift of Failure* is essential reading for parents, educators, and psychologists nationwide who want to help children succeed.
