financial support for apprentices: Higher Education Student Financial Aid Kazi Abdur Rouf, 2020-03-25 The research finds the majority of the higher education student financial aid programs are managed by the states or private agencies or foundations in the world. Their financial aid policies are continuously changing and improving to adopt contemporary situations and changing time. Likewise, the GB higher education student loan policy improvement can be done by continuously reviewing the system, which is necessary for GB to strengthen its higher education student loan program in Bangladesh.

financial support for apprentices: Apprentice Nation Ryan Craig, 2023-11-07 College isn't for everyone. It's time to challenge the status quo and embrace the potential of apprenticeships in tech, healthcare, finance, and more—which can provide a sustainable pathway to economic opportunity. For decades, college has been the only respectable way to access the world of work, despite paralyzing tuition and a dire lack of practical skills that has left 40 percent of college graduates underemployed, unfulfilled, and struggling to repay student loan debt. Education and workforce expert Ryan Craig explores how a modern apprenticeship system will allow students and job seekers to jump-start their careers by learning while they earn—ultimately leading to greater workforce diversity and geographic mobility. With a deep dive into the history behind America's outdated college system, Craig reveals: The origins of the student debt crises and admissions scandals Why apprenticeships are an effective pathway to career opportunity What America can do to catch up with other nations making apprenticeship opportunities broadly available Where students and job seekers can go to land an apprenticeship Featuring a directory of US apprenticeship programs by industry and location, Apprentice Nation is an accessible blueprint for a country where young Americans of all backgrounds can launch careers in a variety of in-demand fields. With just a few common sense changes to education and workforce development, an apprentice nation will put the American Dream within reach—for everyone.

financial support for apprentices: Apprenticeships Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, 2012-11-06 The apprenticeship programme can play a key role in resolving some of this country's most pressing issues. It can help us to create a more skilled workforce, to increase employment and to generate sustainable economic growth. For these reasons, the Government has, quite rightly, made apprenticeships a priority and has devoted significant resources to help them thrive. But money does not guarantee success. This wide-ranging, evidence-based report carefully lays out the areas where the current model could better serve apprentices, their employers, or, in many cases, both. The Committee recommends that the Government takes a more active approach in the future and constantly reviews the profit levels of training providers as an indicator of potential risks to efficiency. The Committee heard evidence of excessive profits at the public's expense, of a Government paying out too much money far too easily and of a lack of genuine value for money being provided by apprenticeship schemes. This is unacceptable

Sciences and Education, Committee on Postsecondary Education and Training for the Workplace, 1994-02-01 Job training has taken a central place among strategies to boost U.S. competitiveness in the world and ensure a high standard of living. Decision making in this area has a major impact on American workers who do not earn 4-year college degrees—fully three-quarters of the workforce. This timely volume reviews the state of postsecondary training for work in the United States; it addresses controversies about federal job policies and programs and outlines a national approach to improved quality and accessibility in workplace preparation. The committee focuses on the various types of training individuals need during their working lives. Leading experts explore the uneven nature of postsecondary training in the United States and contrast our programs with more comprehensive systems found in other major industrial countries. The authors propose what the federal government can—and cannot—do in improving postsecondary training, exploring appropriate roles and responsibilities for federal, state, and private interests. The volume highlights opportunities for improvement in the development of skills standards, student financial aid, worker retraining, second-change education, and the provision of better information to program managers, public officials, and trainees. With a wealth of insightful commentary and examples, this readable volume will be valuable to federal and state policymakers, leaders in the field of training, educators, employers, labor unions, and interested individuals.

financial support for apprentices: Pre-legislative Scrutiny of the Draft Apprenticeships Bill Great Britain. Parliament. House of Commons. Innovation, Universities, Science and Skills Committee, 2008 This is the Committee's scrutiny of the draft Apprenticeships Bill which was published on 16 July 2008. While putting much of the current arrangements for apprenticeships onto a statutory basis, the draft Bill provides greater flexibility to allow employers to design and bring forward for approval their own apprenticeship frameworks. The extent of this flexibility was not clear as a key document, the specification of apprenticeship standards, which will determine the core components of frameworks was not published with the draft Bill. Nor did the Government set out in detail how the National Apprenticeship Service would be resourced or organised, or how the legislation would apply in Wales. These as key omissions impeded the scrutiny process. With this in mind it was concluded that in general the legislation is justified because it has the potential to strengthen the structure for apprenticeships in England. However there was a major concern of volume at the expense of quality. The Government must ensure that the draft Bill is re-written to promote, monitor and report on the quality of apprenticeships. Without provisions underpinning quality, the legislation risks the devaluation of apprenticeships, and employers, parents and young people as well as adults will cease to see apprenticeships as a progressive route through to a future career.

financial support for apprentices: *Education Finance, Equality, and Equity* Iris BenDavid-Hadar, 2018-08-13 This volume revisits educational equality and equity issues, especially, in education finance-related topics consisting of 15 chapters and organized in two parts. The first part of the volume entitled "Education Finance", focuses on equity aspects of resource allocation and its influence on education. The second part, entitled "Educational Equality and Equity", focuses on the conceptualization, and the measurements of educational inequity, and inequality with special emphasis on the cost of inequality. The field of education finance has been significantly influencing policy-makers in many countries in recent years. This volume is focused on equity and equality in education finance in an international frame. This book would be of interest to (1) scholars at the fields of education finance, economics of education, and educational policy, (2) graduate students at the course of school finance or economics of education, and (3) local and global policy makers at the fields of education policy, and education finance.

financial support for apprentices: *National minimum wage* Low Pay Commission, 2010-03-25 The Low Pay Commission was again asked to monitor and evaluate the impact of the minimum wage and to consider its effect on different groups of workers. Additionally the Commission considers the

detailed arrangements for an apprentice minimum wage. Data limitations prevent assessment of the 2009 minimum wage upratings, but the report finds that the 2008 upratings continue to have a significant influence on wages at the bottom of the earnings distribution. The numbers paid at the adult minimum wage rose to nearly 750,000 (3.2 per cent of all adult jobs) in April 2009. This year it has been difficult to separate out any potential impact of the minimum wage from that of the recession more generally. The low-paying industries experienced a smaller proportional fall in jobs than across the economy as a whole, but small firms suffered more than larger organisations. All workers in low-paying sectors remain vulnerable. The Commission pays particular attention to young people, who have experienced greater hardship in the employment market. The Commission's recommendations for October 2010 are: adult minimum wage to increase from £5.80 to £5.93; youth development rate to increase from £4.83 to £4.92; 16-17 year old rate to increase from £3.57 to £3.64; apprentice rate for all employed apprentices currently exempt from the national minimum wage to be set at £2.50.

financial support for apprentices: The Dynamics of Opportunity in America Irwin Kirsch, Henry Braun, 2016-01-22 Across the country, our children are beginning life from very different starting points. Some have aspirations and believe they can be achieved. For too many others, aspirations are tempered, if not dashed, by the sobering realities of everyday life. These different starting points place children on distinctly different trajectories of growth and development, ultimately leading to vastly different adult outcomes. How did we get to a place where circumstances of birth have become so determinative? And what must we do, within communities and across our country, to better equalize opportunity for more Americans – both young and old? The editors of this volume contend that if, as a nation, we do nothing, then we will continue to drift apart, placing an unsustainable strain on the nation's social fabric and the character of its democracy. Consequently, understanding the dynamics governing the distribution and transmission of opportunity – and transforming this understanding into policies and programs – is critical for not

only the life outcomes of individual Americans and their children, but also the country as a whole. The goal of Educational Testing Service's Opportunity in America initiative is to explore these powerful dynamics and to describe and convey them in a way that advances the national conversation about why we must take action – and how best to do so. This volume contains 14 chapters, including an epilogue, written by leaders from a range of fields including education, economics, demography, and political science. Collectively, they not only illuminate key aspects of the problem but also offer suggestions of what policies, programs, and changes in practices could begin to reverse the trends we are seeing. Written in an engaging style, this volume constitutes an essential foundation for informed discussion and strategic analysis.

financial support for apprentices: Creating Shared Value as Future Factor of Competition Benedikt von Liel, 2016-05-13 Benedikt von Liel provides a theoretical and empirical analysis of the concept of Creating Shared Value (CSV). In the theoretical analysis, the author assesses the uniqueness of the theory of Creating Shared Value by comparing it to other relevant social responsibility concepts. The empirical analysis provides insights from over 60 industry case studies of Creating Shared Value. The assessment includes the influence of geography as well as a range of other relevant external and internal factors. As a result, the author identifies critical success factors for the creation of shared value.

financial support for apprentices: Healthcare Support Workers Richard Griffin, 2022-08-26 NHS support workers, such as nursing Healthcare Assistants, Maternity Support Workers, and Therapy Assistants, often provide the majority of face-to-face care to patients, clients and their families. This accessible guide explores the issues underpinning their recruitment, training, management, development and progression. NHS support workers comprise four out of ten of the clinical workforce, yet despite their importance they have long faced barriers that mean they are not able to fully realise their potential. This is the first book to take a comprehensive look at this workforce, its history, the policy that shapes its recruitment, management and deployment, and explains clearly how their capacity and capability can be safely and effectively enhanced. Structured around the employment cycle, this text covers the introduction of Technical Levels, career changes, apprenticeships, recruitment and selection, informal learning, learning cultures, widening participation, supervision and functional skills. Providing practical, evidence-based guidance and including illustrative case studies, it suggests a range of interventions to overcome the long-standing barriers to the effective development and deployment of healthcare support workers. Drawing on the latest research, and practice, including the author's own experience, this book is an important resource for all those educating, managing or recruiting unregistered healthcare practitioners. It will also provide invaluable guidance to healthcare support workers interested in progressing their careers.

financial support for apprentices: The Strategic Management of Place at Work David B. Audretsch, Alice Civera, Erik E. Lehmann, Konstantin P. Leidinger, Jonah M. Otto, Laurenz Weiße, Katharine Wirsching, 2023-06-24 Global economic forces underpin political and social issues and have real impacts on the quality of life in local communities, cities, states and regions. In the face of potential volatility, leaders in every 'place' concern themselves with how they can ensure local economic resiliency for present and future generations. This book argues for the strategic management of places through intentional public policy that brings together stakeholders from the public, private and nonprofit sectors to create an inclusive and sustainable economic path forward. While many economists and political scientists have proposed one-size-fits-all approaches, this book puts forward a more holistic approach, giving local leaders and policymakers the tools to take inventory of their local contexts and providing case study examples of how to craft public policies that create prosperous and sustainable economic conditions.

financial support for apprentices: The Draft Apprenticeships Bill Great Britain. Parliament. House of Commons. Children, Schools and Families Committee, 2008 Apprenticeships have a long history and are widely recognised as a powerful form of learning. Not all young people thrive in a school or college environment: some find the world of work more stimulating and a better

place to learn. The Committee welcomes much of the Government's policy in seeking to raise the standards of apprenticeships, including some of the measures contained within the Draft Apprenticeships Bill. They are not convinced, however, that legislation is strictly necessary to achieve this. The real bite in the Draft Bill lies in the duty to be placed on the Learning and Skills Council (and, in due course, successor bodies), to secure the availability of apprenticeship places for anyone above compulsory school age but under 19, and who holds the necessary entry level requirements. Given the economic downturn, they have grave doubts about whether such a statutory duty can be met. Even if it can, it is feared that the pressure of that duty could lead to the quality of apprenticeships being compromised. The Government's aspiration for a greater supply of apprenticeships and greater diversity of entry to apprenticeships is very much dependent for success on the ability of the public sector to take up the apprenticeship challenge. The Committee also strongly supports group apprenticeship schemes, in which an organisation would have links to smaller firms which, singly, would find it difficult to offer the breadth of experience or continuity of work required for an apprenticeship. Concerns about the impact of the challenging economic circumstances extend beyond apprenticeships. The Government plans to introduce legislation in the 2008-09 Parliamentary Session to transfer responsibility for funding and delivering education and training for 16 to 18-year-olds from the Learning and Skills Council to local authorities. This will be a dramatic change and, caution is strongly urged

financial support for apprentices: Sustainable Management Development in Africa Hamid Kazeroony, 2016-04-14 Sustainable Management Development in Africa examines how African management and business scholarship can serve African and multinational management and organizations operating in Africa. In a broader sense, this book, within an African context, explores how human capital and intellectual capabilities can be organized at the higher education level; describes the cultural, social, and political influencers impacting management and organization; helps conceptualize African management theories to address organizational effectiveness; addresses the current management and organizational practices in Africa in identifying challenges; and provides guidance for more effective management and organizational operation. Aimed at researchers, academics, and advanced students alike, this book lays the groundwork for the application of uniquely African theoretical and practical perspectives for sustainable management and organizational operation, as explained from a contemporary African point of view. In addition and most important, this book contains a uniquely African content that allows for developing new theories and examining new ways of doing business, thus reaffirming the rise of African scholarship in the fields of management, organization, and business.

financial support for apprentices: Rediscovering Apprenticeship Felix Rauner, Erica Smith, 2010-03-10 The rediscovery of the value of apprenticeships has been one of the most significant trends in vocational education in recent years, and has prompted an array of research and development projects in countries around the world. In this volume, the renewed interest in the apprenticeship tradition and the various steps towards the implementation of innovative apprenticeship programmes are analysed and discussed from different perspectives. Beginning with a number of chapters that describe recent developments in apprenticeship training in different national contexts, the book moves on to analyze the way in which both the quality and profitability of apprenticeship act in concert as the most influential drivers of innovation in this field. In sum, this book makes an important contribution to the international literature on apprenticeship. It draws together some of the leading researchers in the area, and with its overview of a number of national Vocational Education and Training (VET) projects, provides a body of knowledge on current practices and issues that has previously been lacking in this complex interdisciplinary field. The lessons learned from countries' experiences, as presented in this book, provide a valuable platform for policy-makers and scholars alike.
