penny mordaunt sign language: Greater Penny Mordaunt, Chris Lewis, 2021-05-20 We're used to hearing that we live in an age of unprecedented division, that the great storms that have engulfed British politics over the past ten years have driven us further apart than ever, with no hope of finding common ground. Penny Mordaunt and Chris Lewis disagree. In this lively and insightful book, they argue that although differences of opinion are a natural part of healthy political debate, some of our current division is caused by a need for political reform. A wave of scandals has corroded public confidence in leadership in all walks of life, fuelled by a hyper-individualistic social media landscape – but by rebuilding public trust we can restore national pride and positive, competent politics. Greater lays out a plan for post-Brexit Britain. Delving into our history, our institutions and our culture, it explains how we arrived at this point and how the British character points the way towards practical national missions. It explores Britain's role in the world and how to balance global and local priorities; makes the case for the United Kingdom based on the mutuality that binds us; and calls for modernising reform in politics, government and markets. It describes the role of social media in culture wars and calls for a relentless focus on aspiration and a social enterprise revolution. Above all, it reminds us of the many reasons we have to be optimistic.

penny mordaunt sign language: Women of Westminster Rachel Reeves, 2019-03-07 In 1919 Nancy Astor was elected as the Member of Parliament for Plymouth Sutton, becoming the first woman MP to take her seat in the House of Commons. Her achievement was all the more remarkable given that women (and even then only some women) had only been entitled to vote for just over a year. In the past 100 years, a total of 491 women have been elected to Parliament. Yet it was not until 2016 that the total number of women ever elected surpassed the number of male MPs in a single parliament. The achievements of these political pioneers have been remarkable – Britain has now had two female Prime Ministers and women MPs have made significant strides in fighting for gender equality from the earliest suffrage campaigns to Barbara Castle's fight for equal pay to Harriet Harman's recent legislation on the gender pay gap. Yet the stories of so many women MPs have too often been overlooked in political histories. In this book, Rachel Reeves brings forgotten MPs out of the shadows and looks at the many battles fought by the Women of Westminster, from 1919 to 2019.

penny mordaunt sign language: Privacy and injunctions Great Britain: Parliament: Joint Committee on Privacy and Injunctions, 2012-03-27 This report says Parliament should not introduce any new privacy statute. It concludes that in weighing the competing rights to privacy and freedom of expression, each case must be judged on its own merits. The bar for limiting freedom of expression must be set high, but the courts are now striking a better balance in dealing with applications for privacy injunctions. Criticism that privacy law has been judge-made, noting that it evolved from the Human Rights Act is rejected. The Committee says the most important step towards improving protection of privacy is to provide for enhanced regulation of the media. The Press Complaints Commission lacked the power, sanctions or independence to be truly effective. Substantial changes to press regulation are needed to ensure that it encompasses all major news publishers including, in time, major bloggers. The Committee makes several recommendations including that the reformed regulator should: have access to a wider range of sanctions, including the power to fine; be cost-free to complainants; be able to determine the size and location of a

published apology, and the date of publication; play a greater role in arbitrating and mediating privacy disputes. One possible mechanism the Committee suggests is for advertisers to agree to advertise only in publications that are members of the press regulator and subscribe to its rules. It also concludes that parliamentarians should ensure that material subject to an injunction is only revealed in Parliament when there is good reason to do so

penny mordaunt sign language: Falling Down Phil Burton-Cartledge, 2021-09-14 The Fall of the Tory Party Despite winning the December 2019 General Election, the Conservative parliamentary party is a moribund organisation. It no longer speaks for, or to, the British people. Its leadership has sacrificed the long-standing commitment to the Union to 'Get Brexit Done'. And beyond this, it is an intellectual vacuum, propped up by half-baked doctrine and magical thinking. Falling Down offers an explanation for how the Tory party came to position itself on the edge of the precipice and offers a series of answers to a question seldom addressed: as the party is poised to press the self-destruct button, what kind of role and future can it have? This tipping point has been a long time coming and Burton-Cartledge offers critical analysis to this narrative. Since the era of Thatcherism, the Tories have struggled to find a popular vision for the United Kingdom. At the same time, their members have become increasingly old. Their values have not been adopted by the younger voters. The coalition between the countryside and the City interests is under pressure, and the latter is split by Brexit. The Tories are locked into a declinist spiral, and with their voters not replacing themselves the party is more dependent on a split opposition - putting into question their continued viability as the favoured vehicle of British capital.

penny mordaunt sign language: Global Britain and Neo-colonialism in Africa Mark Langan, 2024-01-04 This book examines the implications of Brexit for Africa-UK relations amid a 'new

scramble' for the continent. Engaging Nkrumah on neo-colonialism and recent scholarship on global coloniality, Langan here underscores concerns that Brexit was fuelled by an imperial romanticism that now gives rise to a Global Britain project involving the perpetration of 'Empire 2.0' in Africa. In this context, he examines UK elites' pursuit of Brexit trade deals and the 'development' consequences of premature market opening. Throughout its chapters, this work assesses strategic usages of UK aid monies in terms of economic leverage and the externalisation of migration and highlights the impact of UK development finance and corporate activities for the health and wellbeing of workers and host communities. Significantly, Langan explores the UK's pursuit of security interests and human rights criticisms and concludes by highlighting African agency to resist the Global Britain project amid the fragility of the British state itself.

penny mordaunt sign language: House of Commons - European Scrutiny Committee: Reforming the European Scrutiny Process in the House of Commons: Volume II - HC 109-II
Great Britain: Parliament: House of Commons: European Scrutiny Committee, 2013-11-28 The depth and pace of EU integration has demonstrated the need for effective democratic parliamentary scrutiny and accountability of Government at Westminster. This is the first major inquiry into the European scrutiny system in the House of Commons for eight years. There is more that the Committee could do to look at the impact of new proposals. There should be a new requirement to appoint 'Reporters' to take the lead within Committees on EU issues, as well as a more coordinated approach to the Commission Work Programme. Whilst the system need not be scrapped as some have said, it must be enhanced. Many problems arise from the fact that new Members are appointed for each document. The Committee argues forcefully for a return to the permanent membership system, new powers and a change of name to reflect the Committees' core purpose: EU Document Debate Committees. The Committee also examined how EU business is taken on the floor of the House, and the procedures which apply to it. They set out a series of recommendations about the way debates are scheduled and conducted and put the case for a new session of 'EU Questions'. They also review working practices and the visibility of the House's scrutiny of the EU in the media. It concluded that now is the time to propose the introduction of a form of national veto over EU legislative proposals, and then to explore the mechanics of disapplication of parts of existing EU obligations, notwithstanding the European Communities Act 1972

penny mordaunt sign language: *English Uprising* Paul Stocker, 2017-09-27 An important examination of how and why Brexit, Trump, and the rise of the far right have happened, and the consequences for us all. Brexit reflected perhaps the biggest vote of no confidence in the political establishment in modern British history. Despite the vote leading to shock and dismay across the globe, this backlash against the political elite had been decades in the making. But how did we get here? In his important book, Paul Stocker examines how ideas of the far right—always a fringe movement in Britain—have become part of the cultural and political mainstream, especially via a noxious right-wing press, and how these issues are not unique to Britain. Rather, the growth of far-right populism is a Western phenomenon, and one with trends that can be witnessed across Europe, as well as the US. Ultimately, mainstreaming this racism has combined with populism—a growing sense that the political elite does not understand or represent the needs of ordinary Britons—which culminated in Brexit.

UPDATED FOREWORD BY GISELA STUART AND UPDATED AFTERWORD BY JACOB REES-MOGG
On 23 June 2016, in the biggest ever vote in British history, 17.4 million people chose to leave the EU. So what does the future now hold after this momentous decision? What will life be like in Britain after we end our European marriage? Will Brexit precipitate the doom and gloom that many predict? Drawing on years of experience at the cutting edge of economic, business and policy issues, plus extensive discussions with leading politicians and diplomats across the UK, Europe and the world, Clean Brexit answers these questions and more. Authors and economists Liam Halligan and Gerard Lyons believe great days lie ahead. Brexit is an opportunity to strike deals with the world's fastest-growing economies, boosting British trade and job prospects. Freed from the EU's regulatory stranglehold, the UK can thrive, spreading wealth throughout the whole of the country. Directly elected MPs will once again have the final say over our laws, borders, taxes and trade negotiations. Important, balanced and accessible, Clean Brexit is the ultimate guide to making a success of Britain's divorce from the EU and a source of strength for voters elsewhere in Europe who have long demanded EU reform, but have been rebuffed.

Postmodern Pirates offers a comprehensive analysis of Disney's Pirates of the Caribbean series and the pirate motif through the lens of postmodern theories. Susanne Zhanial shows how the

postmodern elements determine the movies' aesthetics, narratives, and character portrayals, but also places the movies within Hollywood's contemporary blockbuster machinery. The book then offers a diachronic analysis of the pirate motif in British literature and Hollywood movies. It aims to explain our ongoing fascination with the maritime outlaw, focuses on how a text's cultural background influences the pirate's portrayal, and pays special attention to the aspect of gender. Through the intertextual references in *Pirates of the Caribbean*, the motif's development is always tied to Disney's postmodern movie series.

Ostensibly, it gives a comprehensive view of colonial life and society in New York State in the middle of the eighteenth century, blending all these elements with the narrative skill for which the author has always been famous.

A timely must-read which speaks to head and heart. – Penny Mordaunt MP Vital ... Skelton makes a compelling case. – Jon Cruddas MP *** An insidious snobbery has taken root in parts of progressive Britain. Working-class voters have flexed their political muscles and helped to change the direction of the country, but in doing so they have been met with disdain and even abuse from elites in politics, culture and business. At election time, we hear a lot about 'levelling up the Red Wall'. But what can actually be done to meet the very real concerns of the 'left behind' in the UK's post-industrial towns? In these once vibrant hubs of progress, working-class voters now face the prospect of being minimised, marginalised and abandoned. In this new updated edition of his rousing polemic, David Skelton explores the roots and reality of this new snobbery, calling for an end to the divisive culture war and the creation of a new politics of the common good, empowering workers, remaking the economy and placing communities centre stage. Above all, he argues that we now have a once-in-a-century opportunity to bring about permanent change.

It is the story of how successive governments have made life difficult for immigrants, long before Theresa May unveiled her hostile environment policies, and how British residents and their newest neighbours have managed often against the odds to build their lives together. And Russell Hargrave asks: If Britain is going to secure a happier, liberal future in an age of immigration, what needs to happen next?
