work focused interview universal credit: Universal Credit Implementation Great Britain: Parliament: House of Commons: Work and Pensions Committee, 2012-11-22 The Universal Credit pilots (Pathfinders) will begin in the north west of England in April 2013 and full national roll-out is due to start in October 2013. The Government has designed a welfare system which should help ease the transition from benefits to work, but significant concerns remain about the potential impact of the changes on some of the most vulnerable benefit claimants, especially the online claims system and the proposed single monthly payment. The Government needs to reflect on its ambitious implementation timetable. Under Universal Credit, payments to cover the costs of rent will go to the benefit claimant, rather than direct to the landlord. This is a major change and the Committee therefore recommends that, during the initial phases of implementation, claimants who currently have their housing costs paid to their landlord should have the option to continue with this arrangement. The Committee also notes that it has not yet received sufficient evidence to satisfy itself that the Government will achieve its stated aim of ensuring more generous support for the disabled. The Government plans to calculate monthly Universal Credit payments by using information taken from data feeds from HMRC's new Real Time Information (RTI) system though there are concerns about that programme. The Committee, further, recognises that there is likely to be a significant increased demand for advice services during the four-year transition to Universal Credit. The report also comments on closely-related policy areas, including: the conditionality and sanctions regime; passported benefits; localisation of council tax support; localisation of the Social Fund

work focused interview universal credit: Universal credit Great Britain: Department for Work and Pensions, 2010-11-11 This white paper sets out the Government's plans to introduce legislation to reform the welfare system by creating a new universal credit. This universal credit will radically simplify the system to make work pay and combat worklessness and poverty. The consultation document (Cm. 7913, ISBN 9780101791328) spelt out the issues and the consultation responses (Cm. 7971, ISBN 9780101797122), publishing simultaneously with this paper, broadly welcomed the proposals that were put forward. Universal credit is an integrated working-age credit that will provide a basic allowance with additional elements for children, disability, housing and caring. It will support people both in and out of work replacing working tax credit, child tax credit, housing benefit, income support, income-based jobseeker's allowance and income related employment and support allowance. The universal credit will improve financial work incentives by ensuring that support reduction is tapered at a consistent and managed rate. It will also be backed up by a strong system of conditionality. As a simpler system managed by one department it will reduce the scope for costly errors and fraud. The universal credit will not replace: contributory jobseeker's allowance & contributory employment and support allowance which will continue aligned to earnings; disability living allowance; child benefit; and bereavement benefits, statutory sick pay, statutory maternity pay, maternity allowance and industrial injuries disablement benefit

work focused interview universal credit: Welfare Reform Act 2012 Great Britain, 2012-03-14 Royal assent, 8 March 2012. An Act to make provision for universal credit and personal independence payment; to make other provision about social security and tax credits; to make provision about the functions of the registration service, child support maintenance and the use of jobcentres; to establish the Social Mobility and Child Poverty Commission and otherwise amend the Child Poverty Act 2010. Explanatory notes have been produced to assist in the understanding of this Act and will be available separately

work focused interview universal credit: The Draft Universal Credit Regulations 2013; the Benefit Cap (Housing Benefit) Regulations 2012 (SI 2012/2994); the Draft Universal Credit, Personal

Independence Payment, Jobseeker's Allowance and Employment and Support Allowance (Claims and Payments) Regulations 2013 Social Security Advisory Committee, Great Britain: Department for Work and Pensions, 2012-12-10 The Social Security Advisory Committee undertook a public consultation exercise as part of their review of universal credit and related regulations and reported that the majority of respondents were broadly supportive of the Government's ambitions to simplify the benefits system. The Committee made 36 recommendations across six broad themes: overarching issues; self employment; housing; the benefit cap; conditionality and sanctions; and claims and payments. The Government brings forward regulations which address a number of the Committee's concerns and make improvements to the way in which universal credit will operate. These include the detailed arrangements for self-employed people, provisions to pay housing cost support for those living in supported exempt accommodation outside of universal credit, and provisions to provide alternative payment arrangements to support claimants as they move to universal credit. The Government also accepts the Committee's recommendations to monitor and evaluate the impact of the implementation of universal credit. The Department is also assembling an expert advisory group to help with the evaluation of universal credit

work focused interview universal credit: Law in a Complex State Neville Harris, 2014-07-18 Approximately half of the total UK population are in receipt of one or more welfare benefits, giving rise to the largest single area of government expenditure. The law and structures of social security are highly complex, made more so by constant adjustments as government pursues its often conflicting economic, political and social policy objectives. This complexity is highly problematic. It contributes to errors in decision-making and to increased administrative costs and is seen as disempowering for citizens, thereby weakening enjoyment of a key social right. Current and previous administrations have committed to simplifying the benefits system. It is a specific objective of the Welfare Reform Act 2012, which provides for the introduction of Universal Credit in place of diverse benefits. However, it is unclear whether the reformed system will be either less complex legally or more accessible for citizens. This book seeks to explain how and why complexity in the modern welfare system has grown; to identify the different ways in which legal and associated administrative arrangements are classifiable as 'complex'; to discuss the effects of complexity on the system's administration and its wider implications for rights and the citizen-state relationship; and to consider the role that law can play in the simplification of schemes of welfare. While primarily focused on the UK welfare system it also provides analysis of relevant policies and experience in various other states.

work focused interview universal credit: Welfare Reform Bill Great Britain: Parliament: House of Commons, 2011 In July 2010 the Government published a consultation document 21st Century Welfare (Cm.7913, ISBN 9780101791328). This set out a range of options for reform of the welfare system. As a result the Government produced a White Paper, Universal Credit: Welfare that Works (Cm. 7957, ISBN 9780101795722), alongside the Government's responses to the consultation (Consultation Responses to 21st Century Welfare (Cm. 7971, ISBN 9780101797122). The White Paper set out the Government's proposals for welfare reform, which aims to improve work incentives, simplify the benefits system and make it less costly to administer. This Bill gives effect to those proposals. The major proposal, as set out in the Bill, is the introduction of a new benefit, to be known as Universal Credit, which will replace existing in and out of work benefits. The Bill also makes provision for another new benefit, Personal Independence Payment, which will replace the existing Disability Living Allowance. The Bill consists of seven parts, and is set out as follows: Part 1: Universal Credit; Part 2: Working-age benefits; Part 3: Other benefit changes; Part 4: Personal independence payment; Part 5: Social security: general; Part 7: Final - sets out the repeals to existing legislation; financial provision and territorial extent. An Explanatory Note, HCB 154-EN, is also available (see ISBN 9780215546715).

work focused interview universal credit: A Casebook on Labour Law Ewan McGaughey, 2018-11-29 A Casebook on Labour Law supports every university labour or employment law course in the UK, set within European Union and international law. It covers history and theory, contract

and rights, participation, equality, and job security. It also has chapters on essential topics for modern labour policy: the right to vote for company boards, in work councils and pension funds, and laws to achieve full employment by ending underpaid underemployment. Each chapter summarises further reading from noteworthy books and journals, and follows a unified conceptual structure. This aims to transcend historic divisions between common law or statute, private or public, and national or international law. The book invites the reader to engage in the economic and social evidence about labour law's empirical consequences and political principles.

work focused interview universal credit: Connecting People with Jobs Activation Policies in the United Kingdom OECD, 2014-07-15 This report examines recent activation policies in the United Kingdom aimed at moving people back into work. It offers insight into how countries can improve the effectiveness of their employment services and also control spending on benefits.

work focused interview universal credit: Welfare That Works for Women? Kate Andersen, 2023-01-23 For generations, women have experienced disadvantage in the social security system. This book analyses fresh empirical evidence which demonstrates the gendered impacts of the new conditionality regime within Universal Credit. It shows how the regime affects women's unpaid caring roles, their position in the paid labour market and their agency regarding engagement in unpaid care and paid work. Ultimately, it highlights the impacts on the position of low-income women in the UK's social security system and society. Drawing on in-depth interviews with mothers, this book offers a compelling narrative and crucial policy recommendations to improve the gendered impact of Universal Credit and make the social citizenship framework in the UK more inclusive of women.

work focused interview universal credit: Family Law and Practice 2021 Sabine, 2021-01-18 Family law is a dynamic subject that is constantly changing and provides a challenge to everyone involved with it. Family Law and Practice offers a clear picture of the practical considerations that arise when advising in a divorce case. It sets out the divorce procedure, explains the financial implications of divorce and includes advice on ensuring that clients receive the money that they are owed. The book also outlines the principles governing the care and protection of children, the remedies available for victims of domestic abuse and the public funding regime in family cases. This new edition has been fully updated to include the latest position in relation to pilot schemes in financial proceedings and the practical steps needed to be taken to comply with the amended PD28A on costs. The book is fully up to date on case law including *JD and A v United Kingdom* (2020) and *Secretary of State for Work and Pensions v Johnson* (2020) on universal credit; *CB v KB* (2020) on the amount of supplementary child benefit which should be paid; *W v H* (Divorce financial remedies) (2020) on pensions; *RC v JC* (2020) on the compensation principle in financial cases and *S v H* (2020) on bankruptcy.

work focused interview universal credit: Women and Welfare Conditionality Sharon Wright, 2023-10-30 Recent welfare reforms, based on austerity narratives and a gender-neutral rationale, have failed to recognise the ways in which women and men experience the different demands and rewards of paid employment and unpaid care. This book draws on a wealth of qualitative longitudinal evidence to cast light on women's lived experiences of welfare and work. Giving voice to social security recipients, this book uncovers the hidden gendered bias of conditional welfare reforms to challenge dominant political discourses, policy design and practice norms. It combines and develops three interdisciplinary perspectives – feminist analysis, lived experience and street-level bureaucracy – to offer a new understanding of British welfare reform policies and practice.

work focused interview universal credit: Contemporary Issues in Childhood Zeta Brown, Stephen Ward, 2017-07-31 Contemporary Issues in Childhood provides undergraduate students with a comprehensive introduction to the current influences and challenges that surround childhood, families and communities. The text carefully explores the lives of children and young people to make clear the link between this particular demographic and social contexts such as family, community and society. Key theories and concepts are examined in each chapter, using Bronfenbrenner's

bio-ecological model to highlight the complex and individual nature of child development. Written by highly experienced authors who represent a variety of professional disciplines, the book offers a comprehensive introduction to encourage critical reflection on the influences and experiences of children and childhood. A range of rich, practical examples accompany the text, in addition to discussion questions, case studies and further reading designed to support readers in reflecting on their own experiences as learners. Contemporary Issues in Childhood is essential reading for students on Education Studies courses and Childhood, Family and Community Studies courses, as well as preservice and in-service educators. It will also be of great interest to Early Childhood Studies and Special Needs/Inclusive Studies students.

work focused interview universal credit: Europe Reforms Labour Markets Aart De Geus, Eric Thode, Christiane Weidenfeld, 2016-03-07 Focusing on the perspectives of policy-makers, the book's purpose is to closely examine the factors that make for successful/unsuccessful labor market related policy reforms. The aim is to reveal the political aspects, namely the chances, challenges and impediments to designing labor market reforms and to establish the conditions under which successful labor market reforms can be advocated, adopted and implemented (process). The work includes exclusive interviews with twelve former European prime ministers about the labour market reforms they initiated in their respective countries: Wolfgang Schäuble Anders Fogh Rasmussen Andrus Ansip François Fillon Gerhard Schröder Georgios Papandreu Mario Monti Jan Peter Balkenende Jerzy Buzek Iveta Radicová Luis Rodríguez Zapatero Tony Blair

work focused interview universal credit: The Impacts of Welfare Conditionality Peter Dwyer, Lisa Scullion, Katy Jones, Jenny McNeill, Alasdair B.R. Stewart, 2022-11-22 Should a citizen's right to social welfare be contingent on their personal behaviour? Welfare conditionality, linking citizens' eligibility for social benefits and services to prescribed compulsory responsibilities or behaviours, has become a key component of welfare reform in many nations. This book uses qualitative longitudinal data, from repeat interviews with people subject to compulsion and sanction in their everyday lives, to analyse the effectiveness and ethicality of welfare conditionality in promoting and sustaining behaviour change in the UK. Given the negative outcomes that welfare conditionality routinely triggers, this book calls for the abandonment of these sanctions and reiterates the importance of genuinely supportive policies that promote social security and wider equality.

work focused interview universal credit: Research Handbook on Social Welfare Law Helen Carr, Edward Kirton-Darling, Jed Meers, Maria Fernanda Salcedo Repolés, 2024-11-08 Presenting diverse understandings of the origins and development of social welfare law, this globally informed Research Handbook embraces the inherent contradictions and complexities within the field. It emphasises the importance of ethical research and inclusivity and recognises the value of historical and contemporary methodologies.

work focused interview universal credit: Sociology of Work Vicki Smith, 2013-05-16 The simple act of going to work every day is an integral part of all societies across the globe. It is an ingrained social contract: we all work to survive. But it goes beyond physical survival. Psychologists have equated losing a job with the trauma of divorce or a family death, and enormous issues arise, from financial panic to sinking self-esteem. Through work, we build our self-identity, our lifestyle, and our aspirations. How did it come about that work dominates so many parts of our lives and our psyche? This multi-disciplinary encyclopedia covers curricular subjects that seek to address that question, ranging from business and management to anthropology, sociology, social history, psychology, politics, economics, and health. Features & Benefits: International and comparative coverage. 335 signed entries, A-to-Z, fill 2 volumes in print and electronic formats. Cross-References and Suggestions for Further Readings guide readers to additional resources. A Chronology provides students with historical perspective of the sociology of work. In the electronic version, the

comprehensive Index combines with the Cross-References and thematic Reader's Guide themes to provide robust search-and-browse capabilities.

work focused interview universal credit: Regulating the Risk of Unemployment Jochen Clasen, Daniel Clegg, 2013-10-17 *Regulating the Risk of Unemployment* offers a systematic comparative analysis of the recent adaptation of European unemployment protection systems to increasingly post-industrial labour markets. These systems were mainly designed and institutionalized in predominantly industrial economies, characterized by relatively standardized employment relationships and stable career patterns, as well as plentiful employment opportunities even for those with low skills. Over the past two to three decades they have faced the challenge of an accelerating shift to a primarily service-based economy, accompanied by demands for greater flexibility in wages and terms and conditions in low-skill segments of the labour market as well as pressures to maximise labour force participation given the more limited potential for productivity-led growth. The book develops an original framework for analysing adaptive reform in unemployment protection along three discrete dimensions of institutional change, which are termed benefit homogenization, risk re-categorization, and activation. This framework is then used to structure analysis of twenty years of unemployment protection reform in twelve European countries. In addition to mapping reforms along these dimensions, the country studies analyse the political and institutional factors that have shaped national patterns of adaptation. Complementary comparative analyses explore the effects of benefit reforms on the operation of the labour market, assess evolving patterns of working-age benefit dependency, and examine the changing role of active labour market policies in the regulation of the risk of unemployment.

work focused interview universal credit: Social Security Law in the United Kingdom Stephen Hardy, 2016-12-23 Derived from the renowned multi-volume *International Encyclopaedia of Laws*, this book describes the social security regime in the United Kingdom. It conveys a clear working knowledge of the legal mechanics affecting health care, employment injuries and occupational diseases, incapacity to work, pensions, survivors' benefits, unemployment benefits and services, and family benefits. The analysis covers the field of application, conditions for entitlement, calculation of benefits, financing, the institutional framework, and relevant law enforcement and controls. Allowances for retirees, employees, public sector workers, the self-employed, and the handicapped are all clearly explained, along with full details of claims, adjudication procedures, and appeals. Succinct yet eminently practical, the book will be a valuable resource for lawyers handling social security matters in the United Kingdom. It will be of practical utility to those both in public service and private practice called on to develop and to apply social security law and policy, and of special interest as a contribution to the comparative study of social security systems.

work focused interview universal credit: Human Rights in Northern Ireland Brice Dickson, Brian Gormally, 2015-02-26 This Handbook is the latest version of a book that was last published in 2003, and has been completely revised to take account of the innumerable legal developments since then. The book contains 26 chapters on topics ranging across the full spectrum of civil, political,

social, economic and environmental rights, with particular emphasis on the right not to be discriminated against. It is currently the most comprehensive and practical publication on the state of human rights in Northern Ireland. This is a part of the world where, as well as ongoing issues arising out of the conflict ('emergency laws' are still in place, for example), there are familiar questions concerning the rights of people with poor mental health, the law relating to family and sexual matters, children's rights, education rights, employment rights, housing rights, and social security rights. The contributors to the book are all experts in their field, most of them with years of experience as human rights activists and advisers. The book provides precise information about relevant legislation and case law (on which there are tables) and is fully indexed.

work focused interview universal credit: Social Citizenship in an Age of Welfare

Regionalism Mark Simpson, 2022-06-30 This book presents a socio-legal examination of national and devolved-level developments in social protection in the UK, through the eyes of politicians and officials at the heart of this process. Since its inception in 1998, devolution has altered the character of the UK welfare state, with dramatic change in the 10 years since 2010. A decade of austerity at national level has exposed diverging view in how governments in London, Edinburgh and Belfast view the social rights of citizenship. This political divide has implications for both social security law, as the devolved countries begin to flex their muscles in this key area for citizens' economic welfare, and the constitutional settlement. The book reflects on the impact of austerity, the referendum on Scottish independence and subsequent changes to the devolution settlement, Northern Ireland's hesitant moves away from parity with Westminster in social protection, withdrawal from the European Union (Brexit), and the possible retreat from austerity during the COVID-19 pandemic. The social union may or may not be weakening; its character is unquestionably changing, and the book lays bare the ideological and pragmatic considerations driving legal developments. TH Marshall's theory of citizenship provides the lens through which these processes are viewed, while itself being reinterpreted in light of the national government's increasing delegation of responsibility for social rights – whether to individuals, the voluntary sector or lower tiers of government.

work focused interview universal credit: Unity in Adversity Charlotte O'Brien, 2017-11-30

'In this important contribution to the analysis and construction of European Union citizenship, Charlotte O'Brien provides her characteristic blend of rigorous legal scholarship and compelling social vision. She identifies challenging questions about the relationship between justice and vulnerability that should concern the shaping of law at all levels of governance.' Professor Niamh Nic Shuibhne, University of Edinburgh 'Piercing the veil of well-known proclamations of "equality" and "non-discrimination", in this intimate portrait of Union law O'Brien sounds a sobering wake up call. The Union, to the genuine surprise of some converted, is a powerful actor of injustice, failing the vulnerable Europeans at many a turn, blinded by its own proclaimed righteousness and goodness to be aware of the plight of those it lets down. The sooner we dispel the oxymoronic myth of a "market citizen" as a necessary tool of the uniquely benevolent EU internal market project, the sooner the process of healing the Union turning its back on the majority of Europeans can begin. This book is an important part of this beginning.' Professor Dmitry Kochenov, University of Groningen 'Doctrinal mastery. Intellectual rigour. Conceptual depth. Empirical enrichment. O'Brien's landmark text offers its readers all of these qualities. But she also writes with a clarity and honesty of purpose that is an inspiration to her readers. Particularly at a time when certain political actors seek to vilify "expertise", Unity in Adversity is a testament to the value of independent and critical academic research.' Professor Michael Dougan, University of Liverpool The EU is at a crossroads of constitution and conscience. Unity in Adversity argues that EU market citizenship is incompatible with a pursuit of social justice, because it contributes to the social exclusion of women and children, promotes a class-based conception of rights, and tolerates in-work poverty. The limitations of EU citizenship are clearest when EU nationals engage with national welfare systems, but this experience has been neglected in EU legal research. Unity in Adversity draws upon the ground-breaking EU Rights Project, working first hand with EU nationals in the UK, providing advice and advocacy, and giving ethnographic insight into the process of navigating EU and UK welfare

law. Its study of EU law in action is a radical new approach, and the case studies illustrate the political, legal and administrative obstacles to justice faced by EU nationals. Taken together, the strands demonstrate that 'equal treatment' for EU nationals is an illusion. The UK's welfare reforms directed at EU nationals are analysed as a programme of declaratory discrimination, and in light of the subsequent referendum, should be treated as a cautionary tale – both to the EU, to take social justice seriously, and to other Member States, to steer away from xenophobic law-making. Shortlisted for the 2018 BBC Thinking Allowed Award for Ethnography. Winner of the 2019 Hart-SLSA Book Prize.

work focused interview universal credit: Confronting Capitalism in the 21st Century Marc Silver, 2019-04-23 This book analyzes key aspects of Marx's Capital with an eye towards its relevance for an understanding of issues confronting us in the 21st Century. The contributions to this volume suggest that while aspects of Marx's original analysis must be adjusted to take into account changes that have occurred since its initial publication in 1867, his overall perspective remains necessary for understanding the nature of crises in 21st century. Part I emphasizes the central concepts Marx employed in Capital, including exploitation, capital accumulation, commodity fetishism, and his use of dialectics as a method for baring the underlying relations that define capitalism. Parts II and III extend that focus by addressing the concept of value, fictitious capital, credit and financialization. Parts IV and V offer analyses of several concrete manifestations of contemporary crises from national contexts (Europe, Latin America, China, and the United States). The volume argues that we have to combat the imperatives of capitalism to move towards a more humane and egalitarian future.

work focused interview universal credit: Politics, Punitiveness, and Problematic Populations Vickie Barrett, Emily Gray, Stephen Farrall, 2023-06-01 This book speaks to those interested in topics related to punitiveness and public attitudes to crime and punishment. Punitiveness has been the focus of increasing criminological attention in recent decades. This book extends this focus by taking a multi-disciplinary approach to examining punitiveness in the criminal justice system, the welfare system, and the education system in British society today. In doing so, this study uses new survey data (n=5,781) applying ordinal and linear regression and structural equation modelling to examine the relationship between public punitiveness towards 'rulebreakers' and political values. This is explored through assessing punitive attitudes towards the treatment of i) school pupils who break school rules, ii) towards the treatment of benefit recipients who fail to comply with the rules, and iii) towards people who break the law. It examines the relationship between political attitudes (neo-conservative values, neo-liberal values), nostalgic values (social, economic, and political), and public punitive attitudes towards the three rule-breaking groups. This book's appeal may extend to an interdisciplinary audience including welfare, education, and social

policy disciplines.

work focused interview universal credit: Is Basic Income Within Reach? Wayne Simpson, 2021-02-22 This book examines the evolution of basic income policy and research in advanced economies and is divided into two parts. The first section considers the development of basic income as a social policy initiative in advanced (OECD) nations from the 1960s to today. It reviews what the negative income tax experiments accomplished, their limitations, and what they can lend to the design and implementation of basic income pilots or a full blown basic income program today. It also considers important developments and research in poverty and economic inequality and in technological change and labour market adjustment over the last half century. The second section focuses on the Canadian case, where the prospects for basic income are perhaps among the most promising. In addition to a review of Mincome and its lessons and limitations, this section considers important developments in poverty research by the Economic Council of Canada and the Canadian Senate in the 1960s, attempts at welfare reform, and the policy initiatives to develop a basic income for elderly Canadians that has endured to this day. Many of the important social and technological developments that are reviewed in the first part will be discussed in more detail with specific reference to the Canadian case. The evolution of the important policy innovations—the National Child Benefit and its successors and the Poverty Reduction Strategy—are outlined in detail and linked to other, more modest, income support initiatives such as the federal sales tax credit that provide a potential foundation for a comprehensive basic income plan in Canada. Research, including recent microsimulation studies of a basic income, are critically reviewed. Although the COVID-19 pandemic has increased interest in basic income to support those hardest hit, the book argues for careful design of basic income policies in its aftermath rather than simplistic adoption of emergency pandemic measures.

work focused interview universal credit: Legislative scrutiny Great Britain: Parliament: Joint Committee on Human Rights, 2011-12-12 There are a number of concerns about the Welfare Reform Bill's compatibility with the requirements of human rights law and the fact that the Government has not provided Parliament with a full human rights memorandum with a detailed analysis. The Government also needs to better monitor the post-legislative impact of the measures in the Bill. The Committee is concerned that some of the proposals in the Bill may be implemented in a way which could both lead to a discriminatory impact and also not demonstrate a reasonable relationship of proportionality between the means employed and the legitimate aim that is sought to be realised. It considers that changes to welfare support designed to meet the right to social security and the right to an adequate standard of living should be supported by evidence and closely monitored after implementation. With regard to the housing benefit cap there is concern about the possible disparate impact on some disabled people and allowing additional discretion to exempt is recommended. The Committee is also not satisfied that there is reasonable justification for the negative impact of the introduction of Personal Independence Payments on the right of disabled people to independent living. The Bill should be amended to ensure that the assessment process for PIPs takes account of the various barriers experienced by disabled claimants and there should be a trial period for the new assessment process. The Secretary of State also needs to be required to make a statement to Parliament responding to the Social Mobility and Child Poverty Commission's annual report and there needs to be opportunity to debate that report and the Minister's statement in response

work focused interview universal credit: Guaranteed Minimum Income Schemes in Europe: Landscape and Design Mr. David Coady, Samir Jahan, Baoping Shang, Riki Matsumoto, 2021-07-02 This paper provides an overview of the design of means-tested Guaranteed Minimum Income schemes, which constitute an important component of social protection systems in European countries. It discusses how key design features differ across countries, including how countries balance the primary objective of poverty alleviation against the desire to both manage the work disincentives inherent in such programs and contain fiscal cost. The analysis finds a clear trade-off between both concerns in practice, with many countries combining low generosity with low benefit

withdrawal rates (BWRs) thus prioritizing employment incentives over the primary objective of poverty alleviation. Many countries can reduce this trade off by combining higher generosity with higher BWRs. Countries with very high BWRs should consider reducing these, including through allowing income disregards and time dependent (rather than income-dependent) benefit withdrawal. The work disincentives associated with higher BWRs can also be attenuated through strengthening complementary activation policies that incentivize and support participation in the labor market.

work focused interview universal credit: *COVID-19 Collaborations* Garthwaite, Kayleigh, Patrick, Ruth, 2022-05-31 Epdf and ePUB available Open Access under CC BY NC ND licence. The COVID-19 pandemic affected everyone – but, for some, existing social inequalities were exacerbated, and this created a vital need for research. Researchers found themselves operating in a new and difficult context; they needed to act quickly and think collectively to embark on new research despite the constraints of the pandemic. This book presents the collaborative process of 14 research projects working together during COVID-19. It documents their findings and explains how researchers in the voluntary sector and academia responded methodologically, practically, and ethically to researching poverty and everyday life for families on low incomes during the pandemic. This book synthesises the challenges of researching during COVID-19 to improve future policy and practice. Also see 'A Year Like No Other: Family Life on a Low Income in COVID-19' to find out more about the lived experiences of low-income families during the pandemic.

work focused interview universal credit: *Borders, Migration and Class in an Age of Crisis* Vickers, Tom, 2020-10-14 This book responds to global tendencies toward increasingly restrictive border controls and populist movements targeting migrants for violence and exclusion. Informed by Marxist theory, it challenges standard narratives about immigration and problematises commonplace distinctions between 'migrants' and 'workers'. Using Britain as a case study, the book examines how these categories have been constructed and mobilised within representations of a 'migrant crisis' and a 'welfare crisis' to facilitate capitalist exploitation. It uses ideas from grassroots activism to propose alternative understandings of the relationship between borders, migration and class that provide a basis for solidarity.

The chapters have been extensively updated and there are new chapters on social security reform, inequalities and social security, and the new 'welfare market'.

work focused interview universal credit: *Family Investments in Children's Potential* Ariel Kalil, Thomas DeLeire, 2004-07-22 The papers in this volume bring together a cross-disciplinary mix of researchers--developmental psychologists, evolutionary biologists, economists, anthropologists, and sociologists--working on the common theme of investments in children. The interdisciplinary conceptual framework adopted by this collection of papers is loosely built around the idea that there are two broad dimensions of parental investments. These include resources (e.g., income, wealth) on the one hand, and behaviors (e.g., parental instrumental support and parental activities that promote warmth, socialization, and cognitive stimulation) on the other. Believing that parental investments yield a return in improved child and young adult outcomes, the papers discuss how parents differ in terms of the resources they have available to invest, the choices parents make, the behaviors they engage in, and relevant policy and program interventions. More specifically, core questions addressed by the authors include: Why do some families invest while others do not and are differential investment patterns related to biology, economics, or social factors? What constitutes a successful investment portfolio? How are investments measured and/or characterized? Are different investments interchangeable, compensating, or off-setting? Given a set of resources, why are some families able to make more effective investments in child outcomes?

How well do these investments affect outcomes for children and for these children as young adults? Can interventions or public policies help families build assets or become better investors in their children's potential? Developing a better understanding of what investments matter, when they matter, and how resources can be successfully invested in children's potential is key to shaping efficient interventions and social policies. Knowledge of how parents invest and what strategies are effective may help policies which seek to further empower and enable parental involvement and choice for their children.

work focused interview universal credit: Cruel, Inhuman or Degrading Treatment? Michael Adler, 2018-06-22 The book subjects the largely hidden phenomenon of benefit sanctions in the UK to sustained examination and critique. It comprises twelve chapters dealing with the terms 'cruel', 'inhuman' and 'degrading' that are used as a benchmark for assessing benefit sanctions; benefit sanctions as a matter of public concern; the historical development of benefit sanctions in the UK; changes in the scope and severity of benefit sanctions; conditionality and the changing relationship between the citizen and the state; the impact and effectiveness of benefit sanctions; benefit sanctions and administrative justice; the role of law in protecting the right to a social minimum; a comparison of benefit sanctions with court fines; benefit sanctions and the rule of law; and what, if anything, can be done about benefit sanctions. Each chapter ends with a paragraph that attempts to highlight the most salient points in that chapter, and the book ends with a short conclusion in which benefit sanctions are assessed against the chosen benchmark.

work focused interview universal credit: *HC 557 - Adult Literacy and Numeracy* Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, 2014-09-08 In light of an OECD survey of 24 countries ranking England and Northern Ireland 22nd for literacy and 21st for numeracy, a more joined-up Government approach is needed to tackle the alarmingly low levels of adult literacy and numeracy. While the Government pledges free training and tuition for any adult who wishes to study English and maths up to and including GCSE level, adults with the most limited skills were not aware of the support available. There is little rigorous or uniform assessment in place for when adults claim unemployment benefit-despite the fact that this is an ideal opportunity to help adults to gain essential skills needed to get a job. The Department for Work and Pensions, the Department for Business, Innovation, and Skills, and Jobcentre Plus and skills providers should work closely to ensure there is consistent and thorough assessment of skills at the earliest possible stage of unemployment benefit claims. The Committee urges a more flexible approach to adult learning, both in the types of programme on offer and in the types of funding given by the Government. There is also concern about reductions in funding to adult learning schemes and the Government is advised to reverse its decision to cut funding to Unionlearn, a scheme which has achieved outstanding results at a fraction of the cost of full-time formal education. The Government should also move away from its preoccupation with GCSEs as the 'gold standard' of measurement for adult skills, as less linear and traditional learning schemes are often more effective
